SATS Congress

It is with great enthusiasm that we invite delegates to this unique collaborative meeting, bringing together clinicians and scientists from developing countries, the local transplant community from South Africa as well as international participants and patients involved in the World Transplant Games.

South Africa, as one of the leaders in the field of transplantation in Africa, is ideally situated to host this very important meeting and build relationships with other African countries with developing transplant programmes. During this **Joint Transplantation Meeting**, the first two days will be dedicated to this programme of Education and Training in Africa followed by three days of exciting abstracts and talks with exceptional guest speakers from around the world.

Dr Elmi Muller
Congress Chair
President: The Southern African Transplantation Society
